VR-MUX 2 MULTIPLEXER

VR-MUX 2

PRODUCT DESCRIPTION

The VR-MUX 2 multiplexer is for use with the SONY XC-999 camera. The VR-MUX 2 comes complete with power, drivers, and chroma genlock to multiplex two SONY XC - 999 (or equivalent) color video cameras. The VR-MUX 2 / SONY combination (CAM-3000C) has proven ideal for such applications such as stereomicroscopy, telerobotics, and hyperstereo where cameras must have large separations.

FEATURES

- Each channel independently buffered
- NTSC or PAL available
- 2D/3D selectable
- Stereo/Pseudo corrector
- All stereo information in one NTSC or PAL frame
- External Sync option
- Camera power included
- Camera drivers included
- B&W/Color option
- Available with 2 SONY cameras as a complete CAM-3000C System

SPECIFICATIONS
